Computer and Systems Engineering (CSE) 
Master of Science Programs

The **Computer and Systems Engineering (CSE) degree** offered by the University of Houston (UH) is a graduate level interdisciplinary program administered by the Department of Electrical and Computer Engineering (ECE) that provides specialization in Computer Engineering.

Applicants can have a BS. in any one of the following fields: Electrical Engineering, Computer Engineering, Computer Science or a degree in any Engineering field or Quantitative Science. Depending on previous background a set of prerequisites might have to be satisfied before the student starts the graduate program in CSE. A student can complete the degree either on a full or part time basis and has the option of doing a thesis or not.

Prospective students can contact the admissions advisor at ece_grad_admit@uh.edu or the CSE Program Director, Dr. Zhu Han at zhan2@central.uh.edu.
Admission Requirements

Unconditional Admission

- A bachelor’s degree in Engineering from an ABET accredited program, a degree in Computer Science, or a degree in Quantitative Science, with a grade point average of at least 3.0/4.0 on the last 60 hours of the undergraduate degree and on any coursework completed since graduation.
- General GRE scores must be submitted. While no minimum GRE scores are used to exclude students, typically students entering the program have GRE scores greater than 150 on the Verbal, greater than 159 on the Quantitative and greater than 4.0 on the Writing Assessment.
- International students must submit an official TOEFL. Recommended score 92 or better

Conditional Admission

- Requirements are the same as unconditional admission except that the grade point average may be between 2.6 and 3.0 on the last 60 hours with high GRE scores.
- Student must be a citizen or permanent resident of the United States.

NOTE: The conditionally admitted student must earn a GPA of at least 3.0 on the first 12 hours of graduate work after enrolling in the program. A general petition needs to be submitted to change conditional admission status after completing 12 hours.

Detailed information on the application process can be obtained from the web at http://www.ee.uh.edu/graduate/prospective-graduate-students.
Prerequisites

Upon admission to the program, each student will meet with the Director of the CSE Program who will review the student's background and inform the student of the prerequisite courses, if any, that the student must complete before taking any graduate level courses.

A. Mathematics

A student must have a mathematics background that includes calculus, differential equations, linear algebra, and numerical methods. These prerequisites may be satisfied by the following courses at UH or similar courses at another university:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1431</td>
<td>CALCULUS I</td>
</tr>
<tr>
<td>MATH 1432</td>
<td>CALCULUS II</td>
</tr>
<tr>
<td>MATH 2432</td>
<td>CALCULUS III</td>
</tr>
<tr>
<td>MATH 3331</td>
<td>DIFFERENTIAL EQUATIONS</td>
</tr>
</tbody>
</table>

B. Computers

A student must have had courses in high level and assembly language programming, elementary data structures, and in digital logic design and microcomputers. These prerequisites may be satisfied by the following courses at UH or similar courses at another university:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECE 1331</td>
<td>Computer and Problem Solving</td>
</tr>
<tr>
<td>ECE 3441</td>
<td>Digital Logic Design</td>
</tr>
<tr>
<td>ECE 4436</td>
<td>Microprocessor Systems</td>
</tr>
<tr>
<td>COSC 6304</td>
<td>Data Structures</td>
</tr>
<tr>
<td>COSC 6310</td>
<td>Fundamental of Operating Systems</td>
</tr>
</tbody>
</table>

C. Circuits and Electronics

A student must have had courses in circuits and electronics. These prerequisites may be satisfied by the following courses at UH or similar courses at another university:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECE 2300 and ECE 2100</td>
<td>Circuit Analysis and Circuit Analysis Lab</td>
</tr>
<tr>
<td>ECE 3355 and ECE3155</td>
<td>Electronics and Electronics Lab</td>
</tr>
<tr>
<td>ECE 3457</td>
<td>Digital Electronics</td>
</tr>
</tbody>
</table>
Required Graduate Courses

To receive the degree of Master of Science, the student is required to complete (on a part-time or full-time basis), with a grade point average of at least 3.0, a minimum of 36 semester credit hours for the non-thesis option or a minimum of 30 semester hours for the thesis option.

Upon admission to the program, the student will meet with the Director of the CSE Program to develop a plan that involves any required prerequisite courses as well as the appropriate courses for the degree plan. If the student follows the thesis option he/she will be advised to find an advisor who will supervise and direct his/her research. The thesis advisor will subsequently advise the student about his/her degree plan.

Non-thesis Option:

A student that follows the non-thesis option should complete a minimum of 30 semester credit hours of coursework (10 courses).

- Four of these courses should be from the List of Required ECE Courses while the remaining can be from the List of Suggested Elective ECE courses.

- A minimum of six courses should be from the Department of Electrical & Computer Engineering.

- A maximum of four courses can be from outside the ECE department. These courses must be from the Department of Computer Science, College of Engineering, or College of Business Administration. No courses from the College of Technology can be used on the Degree Plan.

Before graduation the student's degree plan will have to be approved by the ECE Academic Advisor and the Director of the Computer and Systems Engineering Program.
Thesis Option:

A student who follows the thesis option should complete a minimum of 30 semester hours.

- A minimum of 21 semester credit hours of coursework (7 courses)
- Four of these courses should be from the List of Required ECE Courses
- Six hours of thesis (ECE 6399 and ECE 7399) and
- Three hours of research (ECE 6398)

Before graduation the student's degree plan will have to be approved by the thesis advisor, the ECE Academic Advisor, and the Director of the Computer and Systems Engineering Program.

List of Required ECE Courses:

Choose 4 courses from the following required course list:

- ECE 6370 Advanced Digital Design
- ECE 6346 VLSI Design
- ECE 6373 Advanced Computer Architecture
- ECE 7373 Advanced Topics in Computer Architecture
- ECE 6371 Fundamental Hardware Design
- ECE 6372 Advanced Hardware Design
- ECE 6328 CMOS Analog Integrate Circuits

To satisfy the coursework requirements and form a meaningful coherent program of study, a student may choose the remaining courses from the following list of Suggested ECE Elective Courses.

List of Suggested ECE Elective Courses:

- ECE 5367 Computer Architecture and Design
- ECE 6313 Neural Networks
- ECE 6315 Neural Computation
- ECE 6316 Computational and Biological Vision
- ECE 6321 Principles of Internetworking
ECE 6322  Introduction to Spread Spectrum Communications  
ECE 6323  Optical Fiber Communications  
ECE 6324  Digital Telephony  
ECE 6328  CMOS analog ICs  
ECE 6325  State Space Control systems  
ECE 6330  Mobile Radio Communication Systems  
ECE 6331  Advanced Telecommunications Engineering  
ECE 6332  Wireless Telecommunication Systems  
ECE 6335  Digital Control Systems  
ECE 6336  Advanced Microprocessor Systems  
ECE 6337  Introduction to Stochastic Processes and Random Variables  
ECE 6342  Digital Signal Processing  
ECE 6347  Advanced Topics in MOS Devices  
ECE 6353  RF and Microwave Electronics  
ECE 6354  Digital Video in Telecommunications  
ECE 6356  Electronic Circuit design  
ECE 6364  Digital Image Processing  
ECE 6372  Advanced Hardware Design  
ECE 6376  Digital Pattern Recognition  
ECE 6390  Linear Multivariable Control Systems  
ECE 6397  Robotics in Healthcare  
ECE 6397  Introduction to Cybersecurity  
ECE 6466  Integrated Circuit Engineering  
ECE 7342  Advanced Topics in Signal Processing  
ECE 7349  Advanced Topics in Microelectronics  
ECE 7366  Advanced Process Integration for VLSI

The above list is subject to change, and other graduate ECE courses can be taken with the approval of the Director of the CSE Program.

In all cases no credit will be given for courses that are equivalent to courses used in the student’s undergraduate degree.
Restrictions for Courses Outside the ECE Department:

- All CS courses should be at the 4000 level or higher.
- COSC 6301, 6302, 6303, and 6304 cannot be used on the degree plan.
- The prerequisite course COSC 6310 (Operating Systems) can be used for graduate credit.
- All courses from the College of Business Administration should be at the 6000 level or higher.
- Courses from the General Business Administration (GENB) cannot be used on the degree plan.
- All the courses of the College of Engineering should be at the 4000 level or higher.
- Courses that do not receive a letter grade but are graded S, U or W will not be counted towards the degree plan.
- **Non-ECE courses with similar content as ECE courses**: In case a graduate level (6000 or above) course is offered in another department with similar content to a regularly offered ECE graduate course, graduate ECE students must take the ECE version. If the course in question is not offered regularly, or in the graduating semester, then the students may be allowed to take the non-ECE version by submitting a general petition. Under no circumstances will graduate credit be awarded for both the ECE and the non-ECE on of the course.

**IMPORTANT NOTE**

Students must refer to ECE department policies and procedures for any information not covered in this document, including those found at [http://www.ee.uh.edu/graduate/procedures-requirements-standards](http://www.ee.uh.edu/graduate/procedures-requirements-standards).
