

UNIVERSITY of HOUSTON

CULLEN COLLEGE of ENGINEERING
Department of Electrical & Computer Engineering

APPLICATION for ECE ACCELERATED MASTER'S DEGREE PROGRAM

PROGRAM DESCRIPTION

The accelerated B.S./M.S. degree program is open to qualified undergraduate Electrical & Computer Engineering students desiring to continue their education at the graduate level immediately upon completion of their undergraduate degree. Accepted students take up to six graduate credit hours that are applied to both the bachelor's and graduate degrees. Students may pursue either thesis or non-thesis master's degree options.

NOTE: Acceptance into the Accelerated Program does not constitute automatic admission into the graduate school.

ELIGIBILITY AND APPLICATION PROCESS

Minimum eligibility requirements are:

- Junior standing and completion of 24 credit hours of ECE coursework.
- Minimum 3.0 GPA over all course work completed at University of Houston
- Minimum 3.0 GPA over all engineering course work completed
- Approval from the Department of Electrical & Computer Engineering via an application.

SELECTING GRADUATE COURSES

The [UH Graduate Course Catalog](#) provides a current list of graduate courses that are available.

The selection of courses can be made with guidance from the instructor and the [Director of Undergraduate Studies](#).

For students in the ECE undergraduate program:

- BSEE: ECE graduate courses (6000-level) will substitute for ECE Elective(s).
- BSCpE: ECE graduate courses (6000-level) will substitute for your elective plus lab course(s). To ensure proper credit hours, you will be required to enroll in ECE 4198 Independent Study for each graduate course.

ADMISSION TO THE GRADUATE PROGRAM

Since the student is still an undergraduate with upper-division coursework remaining at the time the application is submitted, acceptance into the Accelerated Program does not constitute automatic admission to the graduate program. Students may apply in their second-final or final semester while completing their undergraduate degree. Visit the [graduate admissions page](#) for details.

APPLICATION for ECE ACCELERATED MASTER'S DEGREE PROGRAM

Last Name: _____ First Name: _____

UH PSID#: _____ UH Email Address: _____@uh.edu

Current Undergraduate Degree: _____ Anticipated Graduation (Semester/Year): _____

A. You may apply one or two courses to the AMP program. Instructor approval is required for each course. Please list the courses to be applied, and obtain the instructor's signature.

1. _____

2. _____

Instructor's Signature: _____

Instructor's Signature: _____

I have read the program description and believe that I meet the requirements stated for admission into the accelerated program. I know that acceptance to the accelerated program does not guarantee subsequent acceptance to graduate school and that an offer of admission to the graduate program will not be made until I have completed the graduate application process. I understand that upon admission into the accelerated program I must submit a general petition to enroll in and substitute the selected graduate courses towards my undergraduate degree requirement.

Signature: _____ Date: _____

Once signed, submit application to the ECE Director of Undergraduate Studies for further review and processing. Students will be notified by the ECE Graduate Advisor once admission has been determined.

The portion below will be completed by the ECE Department

GPA over all UH course work: _____ GPA in undergraduate major: _____

Hours of engineering course work completed: _____
